

## Bibliography

The following list of references has been developed for the European Conference **Sharing the Power – Working together: Participation as a tool to solve homelessness**, organised by FEANTSA and project UDENFOR, Copenhagen, October 23rd 2009. It is a service to conference participants, as well as a tool for sharing experiences on participation. The list is not comprehensive nor has the publications on it been subjected to quality control. It however contains some relevant publications, selected by workshop speakers on each of their subjects. The list was compiled by Maj Kastanje, project UDENFOR, who also added further literature to the list. The list can also be found on [www.participation.dk](http://www.participation.dk).
