

CALL FOR PAPERS –
**14TH EUROPEAN RESEARCH
CONFERENCE**

Helsingborg, 20th September 2019

VENUE: HELSINGBORG CAMPUS OF THE UNIVERSITY OF LUND,
SWEDEN

FEANTSA's *European Observatory on Homelessness*, Lund University and the City of Helsingborg are pleased to announce the **14th Annual European Research Conference on Homelessness in Helsingborg, Sweden**.

This is Europe's leading research conference on homelessness and will explore recent evidence on the broad theme of 'homelessness and housing exclusion' from across Europe and elsewhere. Early career researchers are also invited to present their research activities.

Keynote speakers

Cameron Parsell is an Australian Research Council Principal Research Fellow at The University of Queensland. In his recently published book, *The Homeless Person in Contemporary Society*, Cameron argues that the assumed difference of the homeless person drives the form and function of an elaborate, well resourced, and often well-meaning service system that perpetuates their exclusion from housing, on the one hand, and dependence on the service system, on the other. Through engaging with the service system, the distinct and deficient homeless person is reified.

Marcus Knutagård is a researcher and senior lecturer at the School of Social Work, Lund University. His research interests include housing policy, homelessness and places of exclusion – or more specifically the moral geography of homelessness. He is currently working on a research project called *Scanian homes: Reception, settlement or rejection – homelessness policies and strategies for refugee settlement*. Knutagård's research interests also encompass social innovation from a welfare perspective, with a particular focus on service user influence in practice research.

Submission Details

Please submit an abstract in English (max. 300 words) by **March 20, 2019**. Successful conference submissions will be notified by the end of April 2019. Final PowerPoint presentations will be due by August 20, 2019. Submissions and further enquiries should be directed to teller@mri.hu. The Conference will be held at the Helsingborg Campus of Lund University, Helsingborg, Sweden. Presenters and PhD students pay a reduced fee.
