

A photograph of a young boy with red hair lying on his back in a grassy field. He is wearing blue sneakers, brown shorts, and a grey t-shirt with the word "SKINS" printed on it. He is smiling and looking towards the camera. The background is a lush green lawn.

# COST OF LIVING CRISIS - influence on HFH Poland's activities

Karolina Więckiewicz, FEANTSA FORUM, June 2, 2023

# Key fact on the current situation

## GROWING:

- Inflation
  - Prices
  - Interest rates
- 
- Most housing stock for rent in private hands
  - More people in need for affordable housing

# HFH Poland's Social Rental Program

- Growing prices and costs (unpredictability)
- Bigger apartments
- Less possibility to negotiate
- More trust but less people interested
- Relevancy problem
- Institutionalization

# HOMELESSNESS IN POLAND

- around 30 thousand people in homelessness crisis
  - in that around 1200 living on streets
- BUT: difficulty (systemic, methodological) in counting the rate
- young people leaving institutional fost care especially vulnerable
  - lack of sufficient housing and systemic approach
- BUT: national strategy of deinstitutionalization

# Thank you!
