# TRAINING PROGRAMME

This training is the second, more advanced edition of the one held in November in Brussels. It is designed for local, national, and European policymakers and service providers, offering a deeper understanding of the specific challenges faced by women experiencing homelessness. During the training, we will explore problems and potential solutions with a team of expert practitioners in the field. It will also be an excellent opportunity to connect with stakeholders from across Europe, share experiences, exchange practices, and discuss challenges. Key topics will include trauma-informed care, and the agenda includes a visit to a service working with women.

Please note that training at the European level cannot provide "ready-to-go" solutions. Instead, it serves as an opportunity to gather ideas, inspiration, and contacts, as well as exchange effective practices. We mainly use non-formal education methods and we value mutual and collaborative learning within the participants.
